

Vision, Aims and Values

“PREPARING THE CHILDREN OF TODAY TO MEET THE CHALLENGES OF TOMORROW”

In partnership with parents, carers and other agencies we aim to ensure children grow up to lead safe, happy, healthy and successful lives by:

- *Encouraging children to make informed choices which will enable them to develop into physically and emotionally healthy people. (Be Healthy)*
- *Providing a safe, caring and happy learning environment where children feel valued, confident and secure whilst developing social skills and understanding. (Stay Safe)*
- *Inspiring children to become creative, confident learners, who are self-motivated, enjoy school and achieve their personal best. (Enjoy and Achieve)*
- *Helping children, within school and the wider community, to take responsibility for their own actions, showing tolerance and respect so they can work independently and cooperatively, making a full contribution to school life. (Make a positive Contribution)*
- *Nurturing aspirations, removing barriers and developing the skills for life-long learning so that all children can take advantage of future opportunities. (Achieve Economic Well Being)*

We are committed to fostering equal opportunities for all regardless of academic and physical ability, religion, race and gender.
